# ABOUT US

## OUR VISION AND MISSION:

Enhancing the global supply chain with our care and traditions.

We contend for earning customers' trust by providing valuable solutions and services for their life and business nurtured over the years of striving for excellence and development of our employees and organization.

**Carolina Logistics** offers a wide range of services, covering different industries that rely on logistics to function effectively. We adhere to a proven and efficient strategy for transporting goods by using our own strategies and principles of approaching the work process, which has created us an acclaimed reputation as a reliable logistics supplier in different markets. We are the company that keeps all of the processes under control and disassembles our work algorithm into small steps to separate and simplify every point of the planning process and provide the best possible service during the transit time.

# TIMELINE

Carolina Logistics Inc is established in Boiling Springs, SC, as a hotshot truck and light commercial vehicles business.

**2016**

Carolina Logistics begins to ship directly from Mexico to the US and Canada.

**2018**

Carolina Logistics reaches Europe, setting up offices in Poland, the Netherlands, and other EU countries, along with the office in Istanbul, Turkey, one of the world's busiest logistics crossroads.

**2020**

Carolina Logistics sets off to conquer the Asian market with the main focus on Greater Asia.

**2023**

**2017**

The company expands its fleet and launches new branches, increasing its range of services and the number of lanes. Lanes originating in TX are at the top of the list.

**2019**

The company begins international expansion, establishing three offices in Mexico City, Guadalajara, and Querétaro, Mexico. The first hub in South America opens. The Drayage branch launches. Worldwide opportunities increase.

**2022**

Launch of the Freight Forwarding Department, providing global ocean freight shipping and air freight shipping. Participation in expos and conventions worldwide helps the company expand its international network of vendors.

14. Military commodities
15. E-commerce
16. Food industry

# OUR CLIENTS

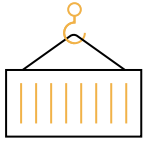

U.S. Customs and  
Border Protection

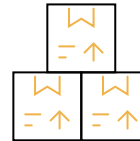

# OCEAN FREIGHT

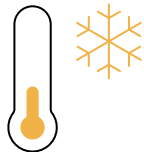

## FCL - FULL CONTAINER LOAD

Having close communication with the main shipping lines ensures us to get space and equipment availability so we can offer safe options for your supply chain.

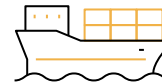

## LCL - LESS CONTAINER LOAD

Through consolidated shipments, we are able to provide a safe and cost efficient service for low quantity cargoes.

## REEFER AND CONTROLLED TEMPERATURE

There are specific products which need to be handled with special temperature, controlled humidity and special staff to supervise those factors during the route so we can offer solutions that adapt and guarantee the proper handling of your shipment.

## HEAVY AND BULK CARGO

Which exceeds the regular container capacity requires special attention.

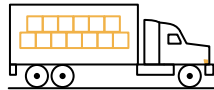

# OCEAN SHIPPING PROCESS

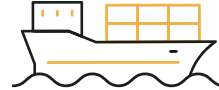

**Our ocean shipping process** is straightforward and all-embracing – we cover any kind of freight from ocean terminals all over the US or neighboring countries, Canada and Mexico through providing direct drayage and transloading services. Moreover, our geography is not confined to only these countries – the Carolina Logistics team is capable of handling shipping throughout continents and countries like Europe, Turkey, the countries of the Middle East region, Asia and worldwide.

# AIR FREIGHT

## AIR CARGO

For products which have a flexible lead time allowing us to search competitive rates.

## EXPRESS SERVICE:

Design for limited volume and weight merchandise which must be delivered urgently. We use commercial flights in which one of our expert team members performs de pick up and delivery personally within a few hours.

## CHARTER

Design for cargoes with urgent delivery deadlines, we offer preferred allocation, direct routes, expedite customs clearance (subject to type of cargo), available equipment and delivery up to the final destination.

## DOOR TO DOOR

We can handle your air shipments from start to finish, from your warehouse to your customer's doorstep, including Customs procedures. There are over 40,000 airports around the world and a huge variety of connections on offer so you can send your goods door to door, streamlining transit times.

 And Main International Airports

# WAREHOUSING

**Warehousing** is the process of storing goods for sale and distribution. Warehouses are widely used by all various types of businesses that need their products stored in bulks before transporting them to different locations. Carolina Logistics has its warehouses all over the world, all of them belonging to our partners – we cooperate with them based on special mutually beneficial agreements. In the warehouses, we store the goods, transload them from the containers into regular FTL or LTL trucks, palletize and wrap the goods, and label the freight for export air shipping etc.
