ONSITE REPRESENTATION AND QUALITY LIAISON SERVICES

Experienced onsite representation can help you get ahead of quality issues before they turn into large scale problems that have major downstream consequences.

- Your first line of defense in response to quality issues
- Trained to know your parts, processes and philosophy
- Ensure new product's launch, program, and platform success
- Onsite investigation and *PFMEA (Process Failure Mode and Effect Analysis)*
- Risk reduce and protect your relationship with your OEM and client
- We stay involved to ensure customer quality requirements and exceed expectations

OTHER VALUE ADDED QUALITY SUPPORT SERVICES

We also offer quality inspection and supplier audit services to global brands, retailers and import-export companies, assisting them to improve quality products and major risks control.

- Pre-Shipment Inspection
- During Production Inspection
- Initial Production Check
- Full Inspection
- Container Loading Inspection
