ASK ABOUT OUR INDUSTRY-BEST WARRANTY, SERVICE & SUPPORT

For over 25 years, Worldwide has provided the highest-quality, most reliable inspection equipment in the Industry. Like you, we call California home and want to ensure that the Smog Check Program is a success for both inspection stations and motorists.

We have the largest and most successful infrastructure of OBDII Field Service Technicians already servicing our customers across all areas of Northern, Central & Southern California. We are the only vendor with the intention to provide On-Site Service and Support for your new OBDII inspection equipment. If your DAD malfunctions, Worldwide guarantees it will continue to get your equipment and your shop operational faster than every other vendor.

Don't miss your chance to order your OIS 7500 Solution today, and experience the difference with the new Worldwide Data Acquisition Device! Contact us today!
